PROFESSIONAL OVERVIEW

Full-stack developer with 3+ years of experience (React, Vue, ASP.NET). I've built my skills through real projects and collaboration, while also teaching German and contributing to the Front Chapter podcast. I'm passionate about growth, teamwork, and bringing my experience to impactful projects.

WORK EXPERIENCE

Software Developer

Samanehaye Modiriat Co., Tehran | 2024 – present

I am a software developer at **Samanehaye Modiriat** in Iran, working on full-stack projects that improve internal management systems and streamline business processes.

- Junior frontend developer (Vue.js)
- Junior backend developer (ASP.NET)

Mid-level Frontend Developer

Madiar Sanat, Tehran | 2023 – 2024

I worked as a mid-level frontend developer at **Madiar Sanat** in Iran, building React applications with tools like **Redux**, **Hooks**, and **React Router** to create clean and scalable interfaces.

- Mid-level frontend developer (React ecosystem)

Junior Frontend Developer

Freelancer, Tehran | 2020 – 2023

I worked as a freelance software developer, taking on projects for various clients to build **React-based applications** and design **UI/UX interfaces**.

- Frontend developer for React projects.
- Designed UI/UX for frontend interfaces.

Junior Frontend Developer

Wersi, Tehran | 2019

I worked as a Junior frontend developer at **Wersi** in Iran. I learned to code via **React** and designing frontend part of an application with real world projects.
